Overall Conclusion

A large sample of 1112 students is involved in the student satisfaction survey conducted online through google form in the college. Here we have conducted survey related to Academics, College Infrastructure, and College Support System. Main outcome of this survey is that most of the students are satisfy with the teacher-student interaction and their grievances are taken in a very good manner. With this functioning of the placement cell and women cell are rated good with the responses. In some areas institute needs to be improve so that students get satisfied fully and improve their skills.
